Re: Adam H. Zynger

To Whom It May Concern:

Has been a clinical observer in the AEC (ER) for the months of May and June '99 during which he performed and documented H&P exams under supervision. He has been persistent in the pursuit of his goals, eager to learn and has the potential for excellence in patient evaluation and care. He maintains a professional demeanor and works well with patients and staff. I recommend him for an IM residency program without reservation.

LaVerne E. Sargeant M.D.
Chief, AEC VAMC
